DETAILED ACTION

Allowable Subject Matter

1. **Claims 1-12** are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. Applicant's arguments, see pages 6-7, filed on 06/01/2007 with respect to claim 7 (and similarly amended claim 1) have been fully considered and are persuasive. The U.S.C. 103 rejection of claim 7 has been withdrawn.

Claims 1 and 7 are allowed because the closest prior art, KOJIMA et al. (US 2002/0173330 A1) and JAIN et al. (US 2002/0193118), either alone or in combination fails to anticipate or render obvious the features of receiving measurements of ROT (noise rise over thermal noise) from cells neighboring the target cell within a coverage area of the Node B and adjusting a target ROT for a target cell according to a relation between the measurement ROT for the target cell, the target ROT for the target cell and the at least one measurement ROT for the at least one neighboring cell.

Claims 2-6 and 8-12 are allowed as being dependent upon independent claims that have been allowed.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
